Stephen Pereff  
Pereff Development Group

Dear Stephen:

On behalf of the Tulsa Shock, I just wanted to say thank you for the beautiful space that you built for us. It is one thing to see it on paper but it is a whole new thing to see it live. The work reflected quality and attention to detail. The project was done in a timely and efficient matter. Your prices are fair with excellent products being used in our space. Kerry was a pleasure to work with and always kept me up to date on the building process. She was very knowledgeable, professional and helpful in all phases of the build out. She genuinely cared about our space and her excitement as our office space came to completion was very contagious to those who were around her. Your crew was skilled, professional and courteous. I will highly recommend Pereff Development Group to other companies who are thinking of construction projects without any reservations. Any future construction projections will definitely include you.

Again, thank you for all of your help in our new dream office space.

Best regards
